

Sioux LIME

Do you know where FFTs, ML-estimators and NNs are used to improve products and processes? Visit us and get introduced to your new Mathware colleagues. Sioux LIME is an engineering firm that applies mathematical modelling to support industry with its knowledge and techniques to gain information from data, insight from simulations or productivity by means of optimization. Our Mathware Engineers generally have a MSc/PhD background in applied mathematics, physics or systems and control. With great success we solve problems the industry is facing by applying our mathematical expertise in a creative and pragmatic way. Our Mathware enables innovation.
