

Lam Research Belgium BVBA

As a trusted, collaborative partner to the world's leading semiconductor companies, Lam Research is a fundamental enabler of the silicon roadmap. In fact, today, nearly every advanced chip is built using Lam technology. Our innovative wafer fabrication equipment and services allow chipmakers to build smaller, faster and better performing electronic devices. We combine superior systems engineering, technology leadership, a strong values-based culture and unwavering commitment to customer success to accelerate innovation, enabling our customers to shape the future.
